

User specification of the output with *rgb* data interpretation as *olv**
Equally spaced output, equal output, chroma change, smoothing

Is the output visually equally spaced for equally spaced colour data as input?

device hue colour output *olv** for six device hue planes OYLCVM

| Colour Code: | <i>rgb</i> | <i>cmy0</i> | <i>000k</i> | <i>w</i> | <i>LAB</i> * | <i>LCH</i> * | <i>nch</i> * | <i>nce</i> * |
|--------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 5 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 16 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

Is the output visually equal for equivalent colour data as input?

device hue colour output *olv** for six device hue planes OYLCVM

| Colour Code: | <i>rgb, cmy0</i> | <i>rgb...w</i> | <i>rgb...LCH</i> * | <i>rgb...nce</i> * |
|--------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 5 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 16 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

Exists an option for a change of chroma for equally spaced input data?

device hue colour output *olv** for six device hue planes OYLCVM

| Change option: | <i>no option</i> | <i>less chromatic</i> | <i>more chromatic</i> | <i>achromatic</i> |
|----------------|-----------------------|-----------------------|-----------------------|-----------------------|
| 5 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| 16 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

Exists an option for colour smoothing for equally spaced input data?

device hue colour output *olv** for six device hue planes OYLCVM

| Smoothing option: | <i>no option</i> | <i>No smoothing</i> | <i>smoothing</i> | <i>visual evaluation</i> |
|-------------------|-----------------------|-----------------------|-----------------------|--------------------------|
| 5 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | Smoothing Yes/No |
| 16 steps: | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | Smoothing Yes/No |
