

# User friendly colorimetric colour notation $icu^*$ and linear relation to the relative $rgb^*$ colour data

$i^*$  relative brillianthness

$c^*$  relative chroma

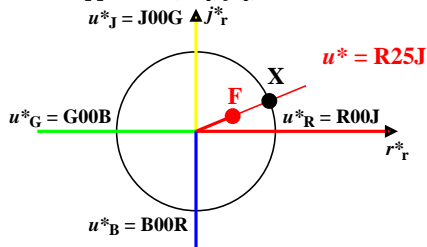

$u^*$  elementary (unique) hue text

example for colour notation:

$icu^* = 0,75 \ 0,50 \ R25J$

relative opponent ( $r^*$ ,  $j_r^*$ ) chroma

relative trichromatic CIELAB ( $a^*$ ,  $b^*$ ) chroma
