

log (relative und U -Empfindlichkeit)

$$\ln V = [c \cdot \lambda - c \cdot 555]^2 \quad \ln P = [c \cdot \lambda - c \cdot 570]^2$$

$$\ln U = 2/5 \ln P + 3/5 \ln D \quad \ln D = [c \cdot \lambda - c \cdot 545]^2$$

$$\log [P, D, T, V, U] \quad \ln T = [c \cdot \lambda - c \cdot 450]^2$$
