## Discriminability of 5 step colour series (Yes/No decision)

Part 1

There are three basic colours on each page: Black N, White W and Chromatic X.

There are at maximum 12 distinguashable steps.

Ten pages include 10 hue planes X = OYLCVM and RJGB.

All steps of the three series N–W, W–X and X–N should be distiguishable on all pages.

Are the three 5step series distinguishable on all pages? underline: Yes/No

only in case of No: Are the three 5 step series on Page x of 10 pages distiguishable? Underline Yes/No and give in case of No the number of distinguishable steps?

Page 1: Yes/No, if No ../12 step differences are distinguishable of Y = Yellow
Page 3: Yes/No, if No ../12 step differences are distinguishable of Y = Yellow
Page 3: Yes/No, if No ../12 step differences are distinguishable of L = Leaf green

Page 4: Yes/No, if No .../12 step differences are distinguashable of C = Cyan blue Page 5: Yes/No, if No .../12 step differences are distinguashable of V = Violett blue

Page 6: Yes/No, if No ../12 step differences are distinguashable of M = Magenta Red Page 7: Yes/No, if No ../12 step differences are distinguashable of R = Elementary Red Page 8: Yes/No, if No ../12 step differences are distinguashable of J = Elementary yellow

Page 9: Yes/No, if No ../12 step differences are distinguashable of G = Elemantary Green Page 10: Yes/No, if No ../12 step differences are distinguashable of B = Elementary blue

Sum: ../10 Yes-Pages and .../120 step differences are distingishable
