SC28 Review of the AWG recommendation on in 28n1280 (DIN 33872-1 to 6) The German proposal included the concept of a human visual RGB. SC28 recognizes the importance of correct

Resolution Busan 18/2009 of ISO/IEC JTC1/SC28 "Office Equipment"

TE210-5

to office equipment and office systems. SC28 welcomes the German plan to continue development of the human visual RGB within CIE Division 1 and Division 8. In addition SC28 welcomes a new proposal from Germany in the future based on this CIE human

understanding of the human visual system and the potential importance and application of this understanding

visual RGB work, potentially in relation to AWG/PWG5 NWI-9 (Office colour space).

unanimous vote (Austria, China, Germany, Japan, Korea, USA)
